PATENT ASSIGNMENT AGREEMENT

THIS AGREEMENT is made the Seventh day of May, 1999

Between:

THE UNIVERSITY OF MELBOURNE, a body corporate established and existing under the Melbourne University Act 1958 (Vic) at Grattan Street, Parkville, Victoria 3052 ('the University')

And

PRANA CORPORATION PTY LTD. A.C.N. 080 699 065, a company registered under the Corporations Laws which has an office at 58 - 60 Easey Street, Collingwood, Victoria 3066 ('the Company')

BACKGROUND:

- A. The University is the registered proprietor of the patents set out in Schedule 1 (the 'Patents').
- B. The University has incurred and will continue to incur considerable costs and expenses in securing and maintaining the Patents, which costs and expenses are unlikely to be met from independent exploitation of the Patents by the University.
- C. The Company has represented that it holds rights over other patents for inventions complementary to the inventions disclosed in the Patents, and that the Patents are best exploited for the benefit of the University by assigning the Patents to the Company for independent exploitation by the Company.
- D. The Company has requested, and the University has agreed to, the assignment of the Patents in accordance with the terms and conditions set out in this Agreement.

NOW THE PARTIES AGREE as follows:

1. INTERPRETATION

- 1.1 In this Agreement, unless the contrary intention appears:

"Agreement" means this agreement and includes all Schedules and Attachments hereto;

"Commencement Date" means the date this Agreement is executed by the Party last to sign, or a date otherwise agreed in writing by the Parties;

— COPY —

"Confidential Information" means information (whether oral or recorded in any form or medium) directly or indirectly disclosed by, or acquired from, a Party ('the disclosing Party') which relates to this Agreement or a subject matter within this Agreement, which is by its nature confidential or otherwise designated as confidential by the disclosing Party, and which includes, without limiting any of the foregoing, information relating to:

- (a) any know-how and trade secrets relating to the use or exploitation of the Patents; and
- (b) administration, policies, conduct, or businesses of the University, or of any academic staff member, student, consultant, agent, licensee or contractor of the University;

but which does not include information which:

- (c) is already in the public domain or which hereafter becomes part of the public domain otherwise than through a breach of an obligation of confidence by the recipient Party; or
- (d) the recipient Party can prove was independently created by it, or was in its lawful possession before it received, obtained or accessed the information under this Agreement; or
- (e) is lawfully and bona fide obtained by the recipient Party from a third party who is not under an obligation of confidence in relation to the information;

"exploit" means the exercise of any of the rights secured by the registration of the Patents in any patent jurisdiction, and **"exploitation"** has a corresponding meaning;

"Fee" means the payments made or to be made under clause 6 in consideration of the assignment of Patents in clause 2.1;

"Improvement" means any improvement in, variation of, or modification of, the Inventions or Licensed Intellectual Property, and includes any further development (including derivative product, technology and know-how) of the Inventions or Licensed Intellectual Property (whichever is the case), irrespective of whether the same is patentable or capable of design registration;

"Intellectual Property" means all rights under statute, common law or equity in relation to inventions (including patents), copyright, registered and unregistered trade marks (including service marks), registered designs, circuit layouts,

- COPY -

Confidential Information, and other rights resulting from intellectual activity in the industrial, scientific, literary or artistic fields;

"Licensed Intellectual Property" means the Intellectual Property listed under section 2 of Schedule 1 for the purpose of clause 2.1(b);

"Inventions" means the inventions disclosed in the Patents, excluding any Intellectual Property (including Confidential Information) that is not expressly claimed and described in the Patents;

"Materials" includes documents, equipment, computer software, goods, information and data stored by any means;

"Net Invoice Price" means the gross invoice price payable for the sale of a Product (excluding any payments to the Company for contracted research or development of a Product) less any bona fide amounts included therein for packing, freight, transit insurance, trade, quantity or cash discounts or rebates actually allowed or taken, and government taxes and charges, PROVIDED THAT where a sale of a Product is not at arms length, or is to a person directly or indirectly controlling, controlled by, under common control with, or enjoying a special relationship for favoured course of dealing with the Company or any licensee or sub-licensee of the Patents or Licensed Intellectual Property, the **"Net Invoice Price"** is the amount that would be charged on an arms length basis to a bona fide third party, less any of the above deductions as are factually applicable;

"Parties" means the parties to this Agreement, and **"Party"** means either party as the context indicates;

"Product" means any product produced or sold and any service provided with the use of the Patents or Inventions, where such production, sale or service in the place where it is carried out would, but for the ownership of the Patents by the Company or a licence of the Patents granted by the Company, amount to an infringement of the Patents;

"Research" means the research to be conducted by the University utilising solely the funds paid by the Company under clause 6.1(a)(ii);

"Royalties" means any amount received by the Company by way of royalties on Products sold by licensees and sub-licensees of the Patents, to the extent such payments derive from the exploitation by the licensees and sub-licensees of the Patents or the Licensed Intellectual Property;

"sale", "sell", "sold" includes selling, licensing, hiring out, assigning or otherwise supplying or disposing of, or allowing the use by third parties of, or providing to third parties any Inventions or any Product; and

- copy -

"University Use" means use by the University for any research or educational purposes, including any such use by a third party (being a not for profit research or academic institution) for, on behalf of, or in collaboration with, the University.

1.2 In this Agreement, unless the contrary intention appears:

- (a) clause headings are for reference only, and are not relevant to the interpretation of the provisions under them;
- (b) a reference to a clause includes a reference to all of its sub-clauses;
- (c) words in the singular includes the plural and vice versa;
- (d) words importing a gender includes any other gender;
- (e) a person includes a body corporate, a partnership and an unincorporated association;
- (f) where a word or phrase is given a particular meaning, other parts of speech and grammatical forms of that word or phrase have corresponding meanings; and
- (g) all monetary amounts are in the Australian currency.

1.3 If a conflict arises between a provision in a clause of this Agreement and a provision in a Schedule or Attachment, the provision in the clause prevails over that in the Schedule and Attachment, and the provision in a Schedule prevails over that in an Attachment.

2. AGREEMENT

2.1 The University agrees, on the terms and conditions of this Agreement, to:

- (a) assign the Patents to the Company; and
- (b) grant to the Company an exclusive licence to use Licensed Intellectual Property anywhere in the world to exploit the Patents.

2.2 The assignment and licence in clause 2.1 do not override or automatically satisfy any laws or other requirements applicable to an exercise of the rights granted in clause 2.1. The Company must comply, and is solely responsible for complying, with such laws and requirements before exercising any such rights.

- COPY -
- 2.3 This Agreement commences on the Commencement Date and remains in effect until terminated by written agreement by the Parties or under clause 16. The licence granted in clause 2.1(b) terminates upon the expiry of all the Patents, or upon the termination of this Agreement, whichever occurs earlier.

3. RESTRICTIONS

- 3.1 In relation to the rights assigned and/or licensed under clause 2.1:
- (a) the Company hereby grants to the University the irrevocable, royalty-free right of the University to use and authorise the use of the Patents and the Licensed Intellectual Property for any University Use provided that the University does not create any commercial product for a third party through such use; and
 - (c) the Company must not assign or transfer the Patents in any manner without the express prior written consent of the University within the first five (5) years after the Commencement Date, such consent not to be unreasonably withheld. This provision does not restrict the Company from licensing the Patents.

4. SPECIFIC CONDITIONS OF LICENCE

- 4.1 The Company must not use Licensed Intellectual Property for any purposes other than for exploiting the Patents in accordance with this Agreement.
- 4.2 The Company must not grant any sub-license in respect of the Licensed Intellectual Property that is independent of the use of the Patents. It may sub-license Licensed Intellectual Property for use in connection with the Patents with the prior written approval of the University, which approval will not be unreasonably withheld and may be subject to such reasonable terms and conditions as are necessary in order to protect the value of the Licensed Intellectual Property.
- 4.3 Unless otherwise agreed in writing by the University, each sub-license granted under clause 4.2 must be subject to terms and conditions no less onerous than those that apply to the Company under this Agreement in respect of the Licensed Intellectual Property, and the rights granted thereunder in respect of the Licensed Intellectual Property must not be greater than those of the Company under this Agreement.
- 4.4 The Company must enforce the terms and conditions of the sub-license. Notwithstanding the sub-license, the Company remains fully responsible for all acts and omissions of each sub-licensee and their employees, agents and

- copy -

28. CONFLICT OF INTEREST

28. The Company warrants to the best of its knowledge and belief that, at the date of this Agreement, no conflict of interest exists or is likely to arise in relation to its performance of this Agreement.
- 28.2 If during the term of this Agreement a conflict risk of conflict of interest arises, the Company must notify the University immediately in writing of that conflict or risk, and must do everything it can (including complying with any reasonable requirements of the University) to remove the conflict or risk of conflict.

IN WITNESS WHEREOF the Parties have executed this Agreement on the date written above.
